

Chorus

Brian: Yes they are the model of two modern Chatanim

David: Yes, Yes: They are the Very Model of two modern Chatanim:

We are the very model of two very modern Chatanim  
Supporting Pinner shul // through any matter thick and thin  
We've learned the pinner way // and we know it's quite traditional  
We keep it all the time // to us that's not conditional  
We have been active members here // it seems from time immemorial //  
Turning out each week on week in manner quite sartorial //  
We've very much become a part of pinner shuls long history //  
Even though our turn out on weekdays // is a myst-er-ee.

Chorus

Even though their turn out // on a weekday is a mystery,  
Even though their turn out // on a weekday is a mystery,  
Even though their turn out // on a weekday is a misty misty misty myst- er –ee

Our time in Pinner has been served upon the board of management  
We sat through endless nights // without too much disparagement //  
In short in matters kith and kin and all about the shul we're in //  
We are the very model of two very modern chatanim //

Chorus

In short in matters kith and kin and all about the shul they're in

They are the very model of two very modern chatanim

I've served my time upon the board as Finance representative

displaying great discretion as this can get quite sensitive

I deployed with certain rigour eminent financial skills

Set to some good use in putting up subscription bills

I've initiated outreach and twined a small community

Aided and abetted by my good friend Leo a nie

And I do pay rapt attention to our Jeffrey's shuirium

Even though they bring on me a state of near delirium.

Chorus

Even though they bring on him a state of near delirium

Even though they bring on him a state of near delirium

Even though they bring on him a state of near delery, lery, lery, lery-um

My chamatz search on Pesach eve is really quite a spectacle

With feathered hand and wooden spoon & suitable receptacle

In short no matter what// has ever gone beforer

I am the very model of a modern chatan Torah

Chorus

In short no matter what// has ever gone beforer

He is the very model of a modern chatan Torah

My engineering skill // is what I've put to good effect  
When I've kept this building sound // you see no sign of much neglect  
The building regulations // is where I keep right up to date  
And I know just how to run // an out and in evacuate  
Logistical deployment is something I'm near perfect at  
Which makes in me the get done, go to, Pinner commis sar iat  
When I've kept Edna happy // together with her building team  
A better chatan ber – raishit // is most unlikely to be seen.

Chorus

A better Chatan Ber - raishit is most unlikely to be seen,  
A better Chatan Ber – raishit is most unlikely to be seen  
A better Chatan Ber – raishit is most unlikely to be, to be, to be, to be seeeeen

To officers that run this shul // we now extend our gratitude  
They gave this honour to us both // before they knew about the food  
And so in matters kith and kin and all about the shul we're in  
We are the very model of two very modern chatanim

Chorus

Yes, Yes, in matters kith and kin and all about the shul there're in  
They are the very model of two very modern chatanim
